Sub: EIA and Public Hearing of Malana II Project in Beas river basin in Kulu district in HP

Dear Sir,

This is with reference to the forthcoming public hearing of the 100 MW Malana II Project in Kulu district on May 18 and 19, 2004. We have learnt that:

* Till a week ago, the affected villages had no information about the public hearing or about the EIA documents.
* The full EIA and EMP of the project are not available at the designated places.
* The affected people being all Hindi speaking, they need the EIA and EMP reports in Hindi to understand the project impacts and the reports are not available in Hindi either.

All this is clearly a violation of letter and spirit of the EIA laws and notifications.

Under the circumstances, we request you to postpone the public hearing slated for May 18 and 19 2004, till above conditions are fully satisfied. Since the affected villages are not in the habit of reading daily newspapers, they should be informed about the public hearing at least a month in advance of the public hearing dates, in manner that the message reaches them.

We are also attaching the letter from the panchayat and people of the Malana village and also a letter from Kulu based NGO “Paryavararan Avam Jankalyan Sansthan”.

Thanking you with best wishes we will look forward to your early response,

Yours Sincerely,

Himanshu Thakkar
